PROFESSIONAL SUMMARY

Facta non verba, duco. Full Stack and AI Developer who builds, leads, performs, and has stood on stages most engineers would avoid. I believe technology should be understood in seconds but remembered for decades. With this vision, I aim to build interactive solutions that embed safety and make learning feel effortless. I'd rather put a working version in front of subscribers than keep talking about the idea. Backed by accolades, LORs, and ongoing AI research. B.Tech CSE, SRMIST, 2028.

EXPERIENCE

- Full-Stack & AI Developer Intern, Genospark** [Aug 2026 - Present]
- Co-Developed a Next.js frontend and Prisma backend into a production app with a server-authoritative data layer for progression, XP, and game state, serving over 1 Million aspirants to prepare for AWS and Microsoft Certifications.
 - Developed the AWS challenge game with hybrid controls, database-driven config caching, and WebGL/Canvas 3D feedback, available in 5 themes. As a result the hit rate and conversion rate increased about two times.
- Software Engineering Intern, HackerRank** [Jul 2026 - Sep 2026]
- Maintained Project Euler+, authoring over 50 questions and validating over 400 test cases for a widely used competitive-programming platform, HackerRank.
- Creative Designer, 6Pistons** [Dec 2024 - Aug 2025]
- Created automotive infographics for brand partners including Mercedes-Benz, VinFast, and Audi, translating vehicle specs into visual guides for auto-expo coverage.
- Full Stack Developer Intern, BufferTech** [Feb 2024 - Aug 2024]
- Developed production web features including React.js, Firebase, REST APIs, reducing checkout-page bounce rate by almost 25% and cutting latency by an estimate 20% through performance and UX optimization.

RESEARCH

- Research Assistant, School of Computing, SRM** (in progress), AI-Based System for Rockfall Prediction, guided by Dr. Abirami G, Associate Professor, SRMIST Kattankulathur. Developing an ML model to predict rockfall risk for hazard mitigation.

PROJECTS

- Locate Art, Cultural-Heritage Mapping Platform** live at: locate.art.lakshya.uk
- Architected and shipped a solo full-stack interactive map (Next.js 16, React 19, Supabase/PostgreSQL, MapLibre GL) cataloging 120+ traditional art forms across Indian subcontinent, backed by a multi-table database with Row-Level Security.
 - Engineered a Navigation map with 3 switchable tile layers and fly-to animations; shipped SEO and security hardening (CSP, HSTS) across 10+ pages. Live and in active use.
- Spider-Verse, Browser-Based AR Portal** live at: spiderverse.lakshya.uk
- Crafted an interactive AR experience (Three.js/WebGL, custom GLSL shaders) with privacy-first client-side hand-tracking (MediaPipe/OpenCV) and an adaptive-quality engine sustaining 60 FPS across devices.
- TODAR 2.0, Smart Expense Tracker** live at: todar.finance.lakshya.uk
- Shipped a finance-management platform (Node.js/Express, SQLite, TensorFlow.js) converting spending into structured data and anomaly-based alerts; crafted for global teens, who reported spending savings of up to 45%.

LEADERSHIP & CAMPUS INVOLVEMENT

- Head of Alumni Relations, Directorate of Alumni Affairs (DAA), SRMIST** [Aug 2024 - Present]
- Connected with 10,000+ alumni and managed and maintained a database of 300,000+ alumni; executed 100+ engagement events and interviewed Shark Tank-featured alumni.
 - Mentored fellow DAA members on LinkedIn branding and positioning, conducting a workshop attended by 1,000+ members.
- Committee Member, Aaruush, SRM University** [Jul 2025 - Feb 2026]
- Produced large-scale campus events including Aaruush, SRM's techno-management fest, and the Grand Tech Conclave: managed celebrity guest logistics for Bhuvan Bam, Navjot Ahuja, and Raghav Chaitanya, and contributed to a team effort that secured Red Bull as an event sponsor.
- EMCEE, Directorate of Student Affairs (DSA), SRMIST** [Sep 2024 - Aug 2026]
- Anchored flagship stage events including Rendezvous, commanding live audiences of 5,000+ through hosting, improvisation, and intercultural communication.

CERTIFICATIONS & ACHIEVEMENTS

- Winner, UCSI Consulting Group Pitch, Kuala Lumpur (Jan 2025), 1 of 500+ teams, for an innovative business-technology solution.
- 1st Runner-Up, SRMIST PBL 2024 (Dept. of Foreign Languages), represented Republic of Korea.
- Winner, BITS Hyderabad TechXcelerate Hackathon 2025.

TECHNICAL STACK & SKILLS

Languages: JavaScript, TypeScript, Python, C++, Java, Bash

Frontend & Graphics: React.js, Next.js, Tailwind CSS, Three.js, WebGL, GLSL, MapLibre GL, Unreal Engine

Backend & APIs: Node.js, Express, FastAPI, Prisma, RESTful APIs

Databases: PostgreSQL, Supabase, SQLite, Firebase

AI / ML: TensorFlow.js, PyTorch

Cloud & DevOps: Azure, Kubernetes, Distributed Computing, Power BI, Git, GitHub, Vercel, Firebase Hosting

Interests: Music Production (800+ songs, 100+ originals in GarageBand); fluent across 7 languages.

EDUCATION

Chennai, India

SRM Institute of Science & Technology, Kattankulathur

B.Tech, Computer Science & Engineering; GPA: 4.37 / 5.0

[Aug 2024 - Expected 2028]
